Technology At Your Speed Of Business

Virtual Number

Virtual Number enables you to establish a local presence in virtually any location within the Cavalier Telephone local service area. By dialing your virtual number, your customers are automatically connected to your business location, so you can handle all your calls. Customers don't pay for the forwarding of their calls; you bear this cost.

Virtual Number can be used if your company moves and you can not keep your existing telephone number. You can also use Virtual Number to help create a local presence in a neighboring community.

Pricing

Virtual Number service is \$15/mth per line for all customer commitments including month-to-month.

Each line can support 1 call at a time. Additional paths can be purchased to support up to 9 simultaneous calls. Each additional path is \$5 per month.
